- 『Change the job』
- 『the self-study』

(4) Award ceremony and symposium(JWEF)

October 12th,2015
@Tokyo
44 members

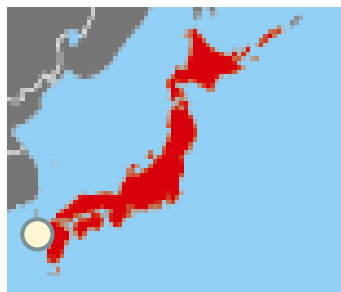

The prize conferment for encouragement of superior women engineers and commemorative symposium

Award winner 1: Woman of the broadcasting engineer

Award winner 2: Woman of the net solution engineer

Symposium : Creation of broadcasting and the service to find a new possibility

(5) Lecture and workshop for students and parents

December 20th, 2015
@Nagasaki prf.
170 members

Let's think about
" Physical science
challenge for a dream"
with parents and
children.

(5) Lecture and workshop for student and parents

Summary :

- **Enlightenment** of the necessity and importance on “A women continuing work”
- **Introduction** the examples of the working women technologist in various fields of science and technology.
- **Workshop** for the high school students on “one’s future work”

Lecture

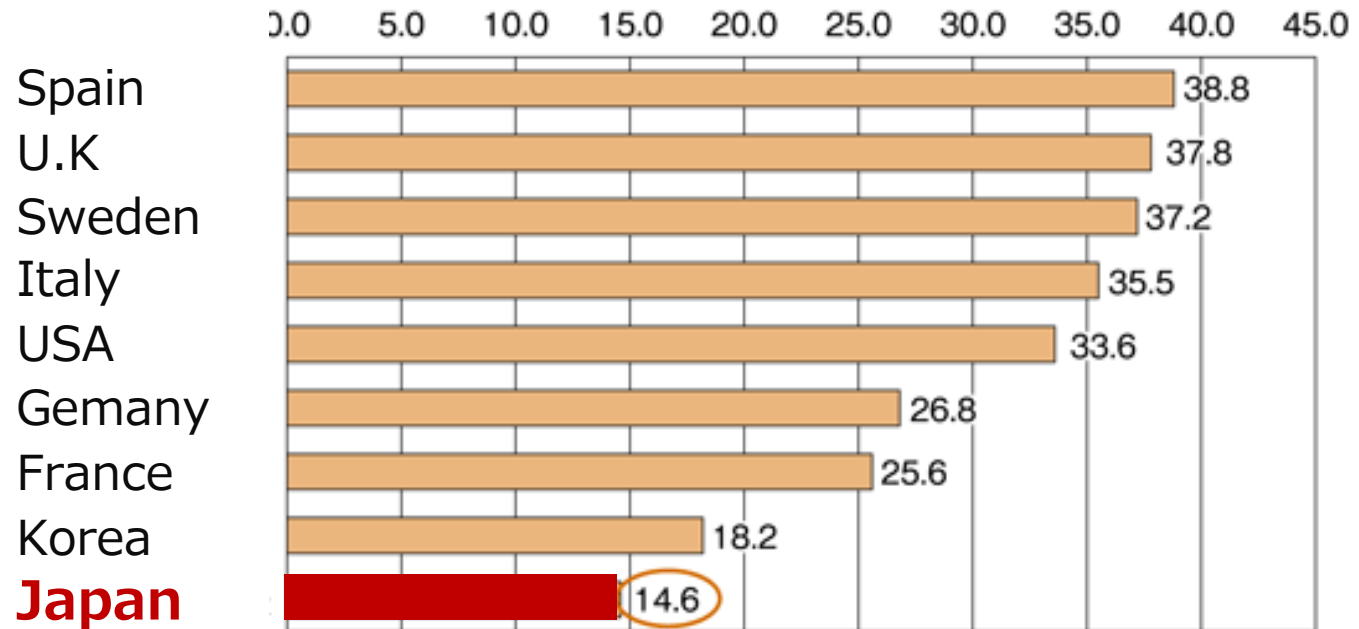

Workshop

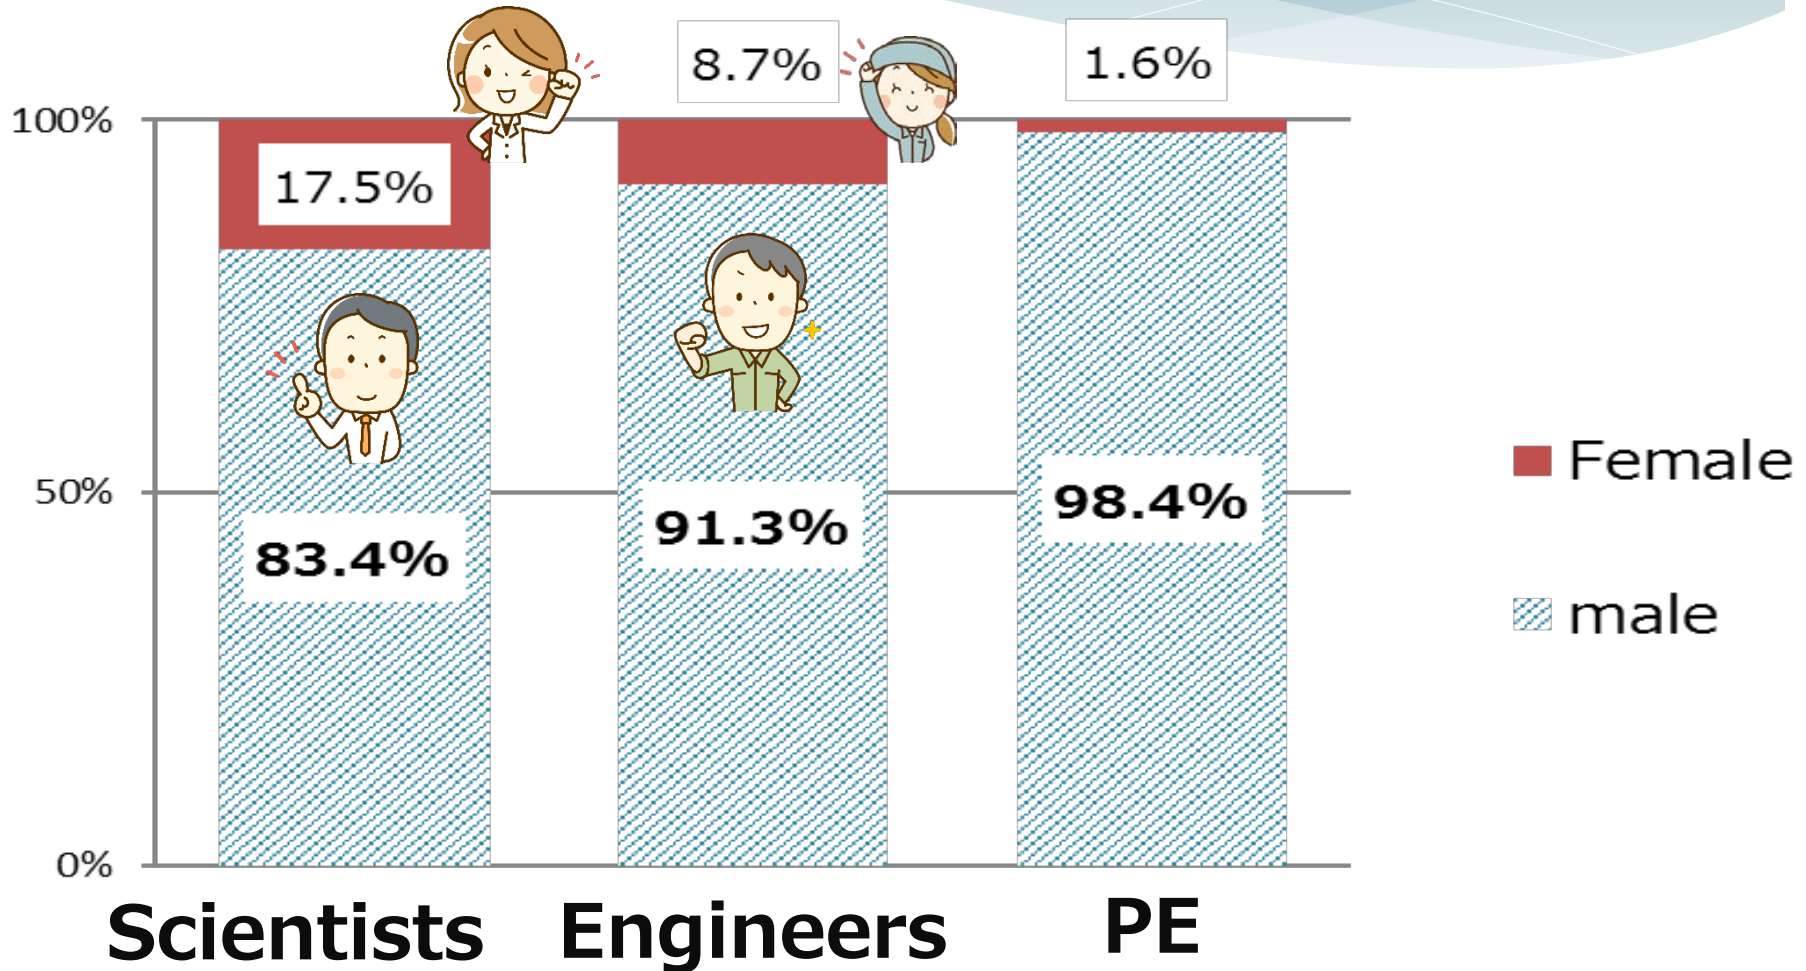

2. Suggestion for future network

1) Background

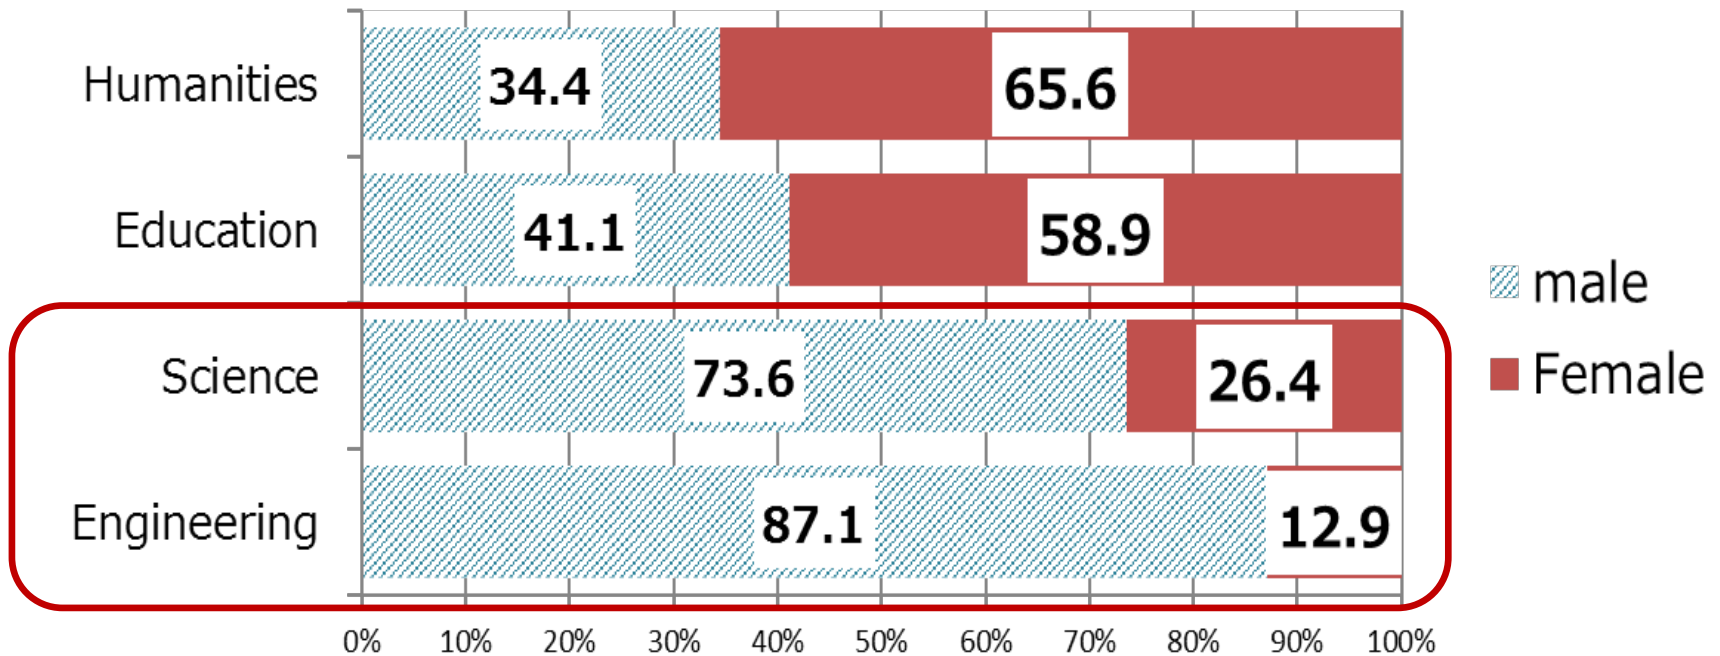

Ratio of women researchers

Resent states of Japan (working women ratio)

Ratio of students according to the specialty

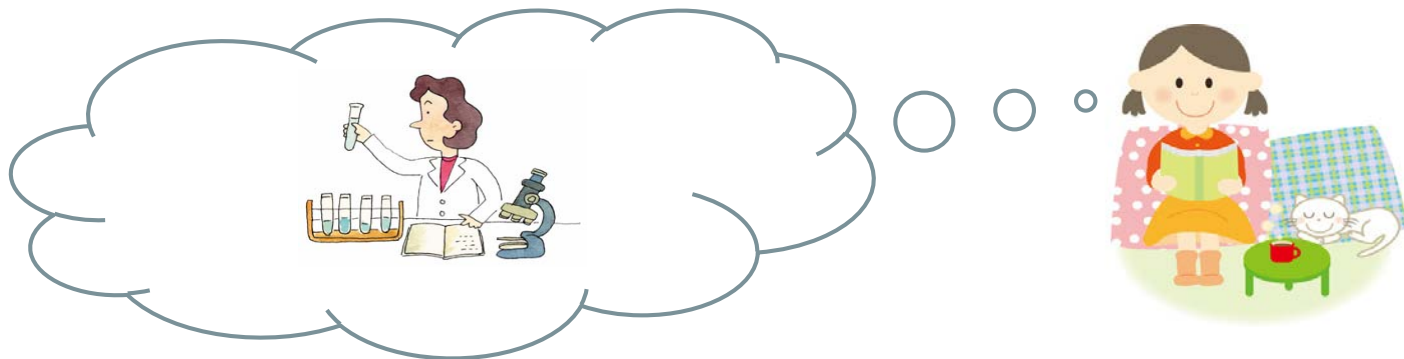

We need **more
Women Engineers and Scientists**

2. Suggestion for future network

2) Main Policies

Actions to **let girls choose** the courses of the field of science and technology

Promoting to find employment by **STEM** companies and to enter the school of higher grade of the **STEM** universities.

example

1. The popularization of the STEM women students by Cabinet Office by internet web-site 「RIKO (STEM) Challenge」
2. Holding of the event to **experience the work of the STEM.**
3. Holding of the **STEM Festival** in summer vacation.

RIKO (STEM:**S**cience, **T**echnology, **E**ngineering and **M**athematics)
