1. Welcome Message

Dear Members,

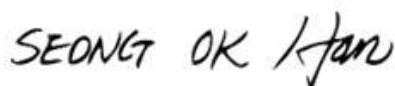

The 2015 YWS Camp (Young Women Scientists Camp) will be held in conjunction with the Smart Sister Program Workshop and the World Science Summit from 17th to 19th October, 2015. As it was discussed in previous year at Seoul, YWS Camp will be organized by the Association of Korean Woman Scientists and Engineers (KWSE).

The 2015 YWS Camp will be an excellent opportunity to meet global leaders in S&T as well as to experience the global vision of science and technology to participate World Science Summit. Also, KWSE will be inviting domestic graduate students and resident foreign women in science and engineering. This year's event is meant to encourage sharing information and research progress in various fields of science and technology, as well as to build up or strengthen networks among young women in Science, Technology, Engineering and Mathematics (STEM).

We are happy to be holding this year's event at Daejeon, which is the science city of Korea where major government and private research institutions and universities specializing in S&T are located. Also, Daejeon is rich in culture and history for the participants to enjoy. We hope the 2015 YWS Camp participation will offer a valuable exchanging experience and keeping a strong relationship in STEM.

We look forward to your participation and cooperation at Daejeon in October.

Sincerely,

Seong Ok Han, Ph.D.
President, KWSE

Hye-On Yoon, Ph.D.
Chair, Organizing Committee
